

Shardul Potdar

I am a final year engineering student with strong engineering foundation adaptability which makes me a valuable fresher. I've good knowledge of C and Python programming, along with data manipulation using Excel, Power BI, SQL, and MongoDB. Eager to apply skills, learn, and grow within your IT team.

PERSONAL PROJECTS

HR ANALYTICS Dashboard (10/2023 - 01/2024)

- Power BI based Project. Helps an organization to improve employee performance and improve employee retention by creating HR Analytics Dashboard.

Airline Reservation System (04/2023 - 07/2023)

- In this project we have created a website, where people can check availability of flight and reserve the seats. My role in project was to create the database and connect that database to the system.
